THE CALENDAR

October 2nd:

North Side Branch: Regular monthly meeting, Edgewater Beach Hotel.

Program chairman Cedric Dittmer has arranged for an interesting speaker, Dr. Edmund Foley, to discuss "Treatments of Infections Using

Sulfonamide and Penicillin."

- October 3rd:

 Kenwood-Hyde Park Branch: Regular monthly meeting, Del Prado Hotel. Dinner at 6:30 followed by a business meeting and "Navy Night" in charge of Commander A. H. Grunewald. Call B. Z. Black, Midway 0989 for dinner reservations.
- October 3rd:

 South Suburban Branch: Dinner will be served at 6:30 at Perry's, 147th and Western. The membership will be notified of the meeting place. Dr. A. L. Cornet will discuss "Drug Addicts and the Million Dollar Dope Ring."
- October 9th:

 North Suburban Branch: Regular monthly meeting, Orrington Hotel,
 Evanston. Dinner at 6:30 followed by a scientific program at 8:00 o'clock. Dr. Waldemar A. Link will speak on "Amalgam Restorations."
- October 10th: Englewood Branch: Regular monthly meeting. Hayes Hotel. Dinner at 6:30 and scientific session promptly at 8:30 p.m. Dr. Robert Gillis of Hammond, Indiana, will talk on "Problems of Full Denture Construction." Call Ernest Goldhorn, Pullman 0444, for dinner reservations.
- October 10th: West Side Branch: Regular monthly meeting to be held at the Midwest Athletic Club. Dinner at 7 p.m. followed by Dr. Stanley Tylman's discussion of the modern usage of Acrylics. Reservations can be made with Lewis T. Weinshenker, Randolph 3531.
- October 13th:

 Northwest Side Branch: Regular monthly meeting to be held at the Northwest Lions Club. Dinner at 6:30. Meeting at 8:00 p.m. Dr. Harry Spiro will lecture on "Fixed Bridgework." Call Spaulding 8851 for dinner reservations.
- October 16th,
 17th and 18th:

 American Dental Association, House of Delegates, will convene at 10
 17th and 18th:

 a.m., Monday, October 16. The second session will start at 2 p.m.,
 Monday, the third at 2 p.m., Tuesday and the fourth at 1 p.m., Wednesday. The four sessions will be held in the North Ballroom, Third Floor,
 Stevens Hotel. Room reservations should be made direct with the hotel.
- October 16th:

 Psi Omega Fraternity will hold a dinner meeting in Private Dining
 Room 2, Stevens Hotel at 6:30 p.m. Reservations can be made with
 Benjamin W. Mach, 55 East Washington Street, Dearborn 1883.
- October 17th:

 American Dental Association dinner in honor of President C. Raymond Wells. Fellowship Hour at 6:30 p.m. in the North Assembly Room, dinner at 8:00 p.m. in the North Ballroom. Tickets are \$5.00, and may be secured from the Secretary, 222 W. Superior St.
- October 24th: Chicago Dental Society monthly meeting to be held in the Grand Ballroom at the Palmer House. Dr. W. E. Moyer of Denver will discuss "Full Dentures," followed by a table clinic at 10:30 p.m.

Volume 8 . Number 7

Dental Hygiene Institute to Be Merged with Chicago Dental Society

When the Chicago Dental Society decided to undertake a comprehensive program of public education in dental health, it was felt that this could best be accomplished through the medium of an independent organization. Consequently, the Dental Hygiene Institute was set up and commenced operation February 1, 1942.

While substantial progress has been made during the Institute's brief existence, it has become increasingly apparent that its program could be further expedited if the Institute's affiliation with the Chicago Dental Society were more widely known. Motives of unidentified groups are likely to be questioned; official bodies, such as the Chicago Dental Society, enjoy public confidence, and identification with the Society would eliminate many obstacles to carrying out an aggressive educational program. This program, it is felt by those who have viewed the problem at close range, could be carried on with greater effectiveness if the administering agency were an integral part of the Society. Likewise, financial support would be easier to obtain.

Following a study of the problem from all angles by the Committee on Committees of the Chicago Dental Society, and after consultation with representatives of various interested groups includboth the profession and the dental trades, a recommendation was unanimously approved by the Society's Board of Di-

rectors that the Institute be merged with the Chicago Dental Society and its activities continued as a dental health council or similar committee under the direct supervision of the Society's Board of Directors.

This recommendation was accepted by the Institute's directors at a special meeting on August 11, the merger to take place as soon as a proper mechanism is set up within the Society to carry on the objectives of the Institute.

The Board of Directors of the Chicago Dental Society at its meeting on September 19 authorized the President to appoint a committee to work out details and to report their suggestions at the next Board meeting. President Oppice appointed the following committee for this purpose: Robert I. Humphrey, Chairman; Arno L. Brett, Glenn E. Cartwright, Lon W. Morrey, T. C. Starshak, F. S. Tittle, Robert J. Wells and Joseph B. Zielinski, with J. Walker Black, Jules Ehrhardt and Earl K. Spangler as lay counsellors.

This action does not contemplate any radical changes in the functions or staff of the Institute. It is merely a change of organization which, in the opinion of the directors of the Society, will be beneficial in developing an aggressive program, more readily acceptable to all groups. The new plan contemplates continued active participation of laymen who have been so helpful in the work of the Institute from its inception.

1944-45 Season Bows in With Near Capacity Audience

Dr. Balint Orban Gives Sterling Performance

Periodontal diseases proved to be a fascinating subject at the September Monthly Meeting of the Chicago Dental Society and dentists from far and near gathered in the Red Lacquer Room of the Palmer House to drink from the fount of knowledge. Dr. Balint Orban, Professor of Oral Pathology and Research at the Chicago College of Dental Surgery, was the speaker and held his audience in close attention despite a mass of detail that bid fair to swamp the average intellect. Research worker, teacher, author and clinician he presented his subject in an illuminating and provocative fashion. Dr. Orban was introduced by Dr. Harold Hillenbrand, Chairman of the Monthly Meeting Program Committee, who stated that the entire season's program is now in order, details of which appear in this issue.

HONORS

Before the start of the scientific session President Oppice introduced Dr. Frank Cady of the United States Public Health Service, who has been stationed in Chicago for the past year and who has made many contributions to the Chicago Dental Society during his stay here. Dr. Cady will be transferred to the Pacific Coast in the near future and the Society chose this way to do him honor. Two members of the Armed Services were elected to Honorary Membership: Col. Arnett P. Matthews of the Sixth Service Command and Capt. J. A. Tartre, of Great Lakes Naval Training Station, both well known to Chicago Dental Society audiences and both of whom have given without stint when called upon for clinical talent.

PERIODONTAL DISEASE

There are so many manifestations of periodontal disease that differentiation is difficult. Pyorrhea is probably the oldest term in general use that is applied to this condition but it has fallen into disrepute. Periodontoclasia is even worse, according to Dr. Orban, and neither of them mean a thing. They lack a scientific basis. He proposed a nomenclature that would correct this and divided periodontal disease into six classes: Gingivitis, Periodontitis, Periodontosis, Periodontal Atrophy, Gingival Hypertrophy and Occlusal Traumatism. These terms are, for the most part, self explanatory. Dr. Orban stated at the onset that periodontal disease could be cured and proceeded to demonstrate just how it could be done. He showed a number of colored slides depicting the six divisions and showing just what treatment was most effective for the particular case. Ulcerative gingivitis (Vincent's disease, Trench mouth,) came in for consideration, also. Dr. Orban stressed the point that if good oral hygiene is established almost any treatment works. "The fact is, the worse a case of trench mouth appears to be the quicker it responds to treatment."

Dr. Orban is not partial to any particular method of treatment of periodontal disease. Surgery, electro-coagulation or chemical packs can be used as seems The elimination of the advisable. pockets is ninety per cent of the problem. He spent considerable time describing the methods of post-operative treatment and possibly discouraged some of the less hardy souls by saying that even when a case is "finished" it must be seen every two or three days over a period of several weeks and the granulations searched out and destroyed. But he offered encouragement too, by stating that the whole procedure could be done in a painless manner. Some "before and after" photographs of stubborn cases concluded the evening's performance.-James H. Keith.

What Now?

By Frederick T. Barich

Editor's Note: Joe Bicuspid comes to life in this issue. We trust the response to the question posed in the last paragraph will be sufficient to encourage his creator, Frederick T. Barich, to establish him as a regular feature in The Fortnightly Review. His purpose is to discuss in his droll way pertinent problems of interest to the members of the Chicago Dental Society.

.Me (thinking to myself: "That guy has been asleep for three months now and if it keeps up at this rate he will vie for honors with old Rip Van Winkle. The poor sucker is losing weight but appears to be gaining because the shaggy golden locks and curly auburn beard give him the

appearance of Samson. What can I do to snap him out of it? Oh well, he deserves a good long rest because he had toiled long and hard to make a biweekly deadline. He was fed up with it anyhow; so I'll just let him snooze in peace." My trend of thought was interrupted by the postman who dropped a stack of ads and dental journals on my desk. After the weather was kicked around he departed as usual and I proceeded to cull out the chaff. They say there's a critical paper shortage h-m-m.) While I file the extraneous nonsense in the waste basket I notice a letter for Joe Bicuspid. Maybe I should toss it out with the rest and let him sleep on. As I am about to do the big favor, he grunts a little, turns over on his back, and snores louder than ever before. My right hand conscience restrains the act.

You may well imagine the time I had in rousing Joe. His blue eyes just stared at me in bewilderment and it seemed like eons before recognition registered on a brain full of cobwebs. A faint smile parted his lips as he uttered: "Hello." "Hello," I said and walked away leaving him to recover from the shock. On the tail end of a protracted yawn he said: "Why did you awaken me?" "There's a letter here for you." "From whom?" "I dunno, but it's from the Home Office." "Why can't they let me alone-(yawn) read it to me, I'm too tired." I open the letter and read: "Dear Joe: Since your retirement our publication has literally gone to hell. We now need help-lots of help; so on bended knee I implore you to return to our staff. Anything you ask for will be granted-we will even double your salary; please come back to us! Everybody misses you. Be a good scout and give the boys a break. How about it? Hopefully yours. (Signed) Bob." Before I finished the letter Joe rolled over and returned to the land of nod.

Now I pose these questions to you: "Should I reawaken him and use the old impeller to force service as Bob's letter suggests; or should I let him slumber on in apparent consummate contentment?"

Story of the Chicago Crime Commission

Alliance Between Politics and Crime

The Committee to Cooperate with the Chicago Crime Commission presents its fifth of a series of articles in connection with crime in Chicago and what the "Commission" has done to help correct the situation.

While the Chicago Crime Commission had its attention almost entirely centered on gangster depredations, performance in the criminal courts began to show signs of serious deterioration; untried indictments began to accumulate; bargaining with defendants for pleas of guilty was becoming a habit, and court industry was on the decline. During the same period observers assigned to the police department reported definite indications that district captains were suppressing complaints of crimes on a wholesale scale in order to make a good showing.

Careful analysis of criminal court statistics for 1927 and the first three months of 1928 brought convincing proof that drastic action would have to be taken immediately to prevent a complete breakdown in administration of criminal The records disclosed that aliustice. most 2,000 undisposed cases cluttered the dockets while judges spent less than an average of three hours on the bench daily; that felony and court waivers were being granted most promiscuously and in record-breaking totals; that probations were handed out as generously as waivers to defendants who saved the courts and prosecutors time by pleading guilty.

Armed with authoritative statistics and observers' accurate reports, the Chicago Crime Commission took drastic action. In April 1928, its president released over his signature a stinging statement calling attention to the shocking record of murders and bartering with criminals in courts and charging the existence of an alliance between politics and crime. Included also was a demand

that three judges be removed from service in the criminal courts.

The challenge by the Commission could not be ignored. The Chief Justices of the Superior and Circuit Courts ordered an exhaustive investigation by three jurists sitting en banc. The Commission submitted hundreds of files containing reports on and records of waivers and probations. There was no denying the evidence submitted and improvement followed immediately. Waivers and probations shrank to infinitesimal totals and bartering in courts was a thing of the past. The three judges left the criminal court and one of them was not reelected.

A survey conducted by the Chicago Crime Commission in police districts conclusively proved that crime reports were being suppressed on a wholesale scale. This disclosure led to the installation of a new system of reporting. The result was that 15,943 robberies were reported in 1932 as against 1,263 in 1928, while 879 burglaries in 1928 jumped to 22,791 in 1932.

The Commission is not a part of any government, state, county, or city subdivision. It is not endowed; does not share in "tag days" or other fund drives. It is supported solely by voluntary contributions of public spirited citizens who recognize its civic value.

Make contribution checks payable to Chicago Crime Commission and mail to any member of the Commission, Chicago Dental Society, 30 North Michigan Avenue.

Contributions to the Chicago Crime Commission are deductible from Federal Income Tax.

Committee to cooperate with Chicago Crime Commission:

JOSEPH B. ZIELINSKI,

ROBERT I. HUMPHREY,

ROBERT G. KESEL, Chairman.

NEWS AND ANNOUNCEMENTS

CHICAGO DENTAL SOCIETY SELECTS MEETING PLACES FOR 1944-1945

After careful consideration of the possible meeting places for the various activities of the Chicago Dental Society during the coming year the decision was made at a recent meeting of the Board of Directors to hold the regular monthly meetings at the Palmer House and the Midwinter Meeting at the Stevens Hotel. The date of the Midwinter Meeting has been moved forward—it will open on February 12 and continue through February 15.

Members are urged to watch announcements of the coming monthly meetings because they may not be held on the customary third Tuesday in the month for a number of reasons. The October meeting has been moved back one week to October 24 to avoid conflict with the sessions of the House of Delegates of the American Dental Association. The all-day meeting to be held in November is scheduled for Wednesday, November 15, instead of on Tuesday to accommodate the large number of dentists who ordinarily spend Wednesday out of their offices.

DINNER TO HONOR PRESIDENT C. RAYMOND WELLS

The president of the American Dental Association, Captain C. Raymond Wells, will be the guest of honor at a dinner sponsored by the American Dental Association to be given Tuesday, October 17, at 8 p.m., in the North Ballroom of the Stevens Hotel. Frank J. Hurlstone, chairman of the Dinner Committee, announces that there will be a fellowship hour starting at 6:30 p.m., in the North Assembly Room, which adjoins the North Ballroom, preceding the dinner. There will be little speaking but excellent entertainment has been secured.

Tickets are \$5.00 and all the members of the Chicago Dental Society are invited to attend to honor Capt. Wells for the efficient administration he has provided the American Dental Association during the past year. Reservations can be made with the Secretary of the American Dental Association.

ALLAN BRODIE NAMED DEAN AT ILLINOIS

Allan G. Brodie, Professor and Head of the Department of Orthodontia, has been appointed Acting Dean of the University of Illinois College of Dentistry, beginning September 1. Dr. Brodie received the degree of Doctor of Dental Surgery from the University of Pennsylvania in 1919. He is also a graduate of the Angle School of Orthodontia and holds the degrees of Master of Science and Doctor of Philosophy in Anatomy from the University of Illinois.

Dr. Brodie came to the University of Illinois in 1929 as Assistant Professor of Orthodontia, to develop a graduate department of orthodontia. In 1937 undergraduate courses in orthodontia as well as graduate courses were placed under the direction of Dr. Brodie, who reorganized the entire program in undergraduate orthodontia. Since that time Dr. Brodie's contact with the undergraduate body and his interest in dental education have been constant. A number of his graduate students have achieved distinction in the field of orthodontia.

Dr. Brodie has been active in professional and dental educational societies, a number of which he has served in an official capacity. Among those societies of which he is past president are the Chicago Section of the International Association for Dental Research, the Chicago Association of Orthodontists, and the Midwestern Component of the Edward H. Angle Society. He is a Fellow of the Chicago Institute of Medicine, a

NEWS AND ANNOUNCEMENTS

member of Sigma Xi, the American Association for the Advancement of Science, the American Association of Anatomists, and the Chicago, Illinois and American Dental Societies.

He delivered the first Edward H. Angle Memorial Lecture before the American Association of Orthodontists in 1940, and was Orthodontic Delegate from the United States to the IX International Dental Congress in Vienna in 1936.

Dr. Brodie's research in growth and development of the head has received national recognition and has proved to be of value in clinical practice as well as in the advancement of science.

C.D.S. MEMBERS MAY ATTEND A.D.A. SESSIONS

Several open meetings to discuss important affairs relative to dental practice will be held in connection with the sessions of the House of Delegates of the American Dental Association.

On Saturday, October 14, at 10 a.m. in the Stevens Hotel the War Service Committee of the American Dental Association will meet to consider postwar problems. The following high ranking officials will participate: Maj. Gen. Robert H. Mills, Chief of the Dental Division, Medical Department, Office of the Surgeon General, U. S. Army; Rear Admiral Alexander Lyle, Bureau of Medicine and Surgery, U. S. Navy; Rear Admiral William T. Wright, Jr., Assistant Surgeon General in Charge of the Dental Division, U. S. Public Health Service; Capt. Robert S. Davis, Chief of Dental Service, Bureau of Medicine and Surgery, U. S. Navy; Dr. Lloyd Y. Beers, Chief of the Dental Division, U.S. Veterans Administration.

The Committee on Legislation of the American Dental Association will meet at 7:30 p.m. in the North Ballroom of the Stevens Hotel on Tuesday, October 17. According to Dr. Sterling V. Mead,

chairman of the committee, legislative problems will be discussed as fully as possible and controversial issues will be open to discussion. The committee desires all possible advice and comment on legislative problems and urges full attendance at this meeting. Some of the matters to be considered are: Social legislation; legislation relating to the armed forces; proposals for dental research and dental health education of the public; veteran's legislation, which will include proposals for supplying prosthetic appliances to veterans, and veteran's benefits that may be available to returning dental officers.

The Council on Dental Health will hold an open meeting on Tuesday morning, October 17, in the Stevens Hotel, at which information on the scope of the Council's proposals will be presented before they are submitted to the House of Delegates for final action. There will be discussions of prepayment plans, dental care for low income groups, public and professional relations and related subjects. This meeting will start at 9:30 a.m. in the North Ballroom. Members of the Chicago Dental Society who are interested in these particular subjects are welcome to attend.

CHICAGO DENTAL SOCIETY GOLF OUTING DRAWS CROWD

Despite a rainy morning one of the largest crowds to ever attend a Chicago Dental Society golf outing gathered at the Westward Ho Country Club, Wednesday, September 13.

Rodney Marks was the first recipient of the President's Cup which proved to be a brightly polished brass cuspidor. The rules concerning the award of this cup stipulate that it will be the possession of the low gross golfer for the current year and his name will be engraved upon it. If the same individual wins the cup for three successive years it will be-

NEWS AND ANNOUNCEMENTS

come his permanent prize. D. R. Levitt tied with Rodney for low gross for 18 holes—both shooting 78's—but, in a card drawing conducted by Col. Arnett Matthews, Rodney was the winner. The consensus was that the prize was an appropriate one for the winner because of his well-known fondness for Beechnut to-bacco, with which he had himself well

fortified during the day.

Following an excellent dinner and some short story telling by various celebrities present the chairman of the Sports Committee, Lynn V. Stephenson and his vice-chairman, Peter Wlodkowski, awarded many fine prizes to the following: Low net was won by John Walters, and low gross for thirty-six holes by R. G. Kesel. Other low gross prizes were won by T. P. Cavanaugh, Augie Pecaro, J. D. Pett and L. F. Whitson. Other low net prizes were won by A. G. Adams, Earle Bommerscheim, Jack Besser, Leo J. Cahill, W. O. Fellman, Max Fisher, Ivan Haag, Larry Hill, L. C. Holt, Frank Hospers, Frank Hurlstone, R. W. Johnson, H. F. Kedd, James Keith, Leo Kremer, Ralston Lewis, Vince Milas, Folmer Nymark, George Olfson, J. F. Porto, B. Q. Smith and Gus Tilley.

The Sports Committee was commended for their efficient conduct of the day.

PLAN-FOR-HOSPITAL-CARE WILL OPEN OCTOBER 5

Announcement has been received that the Plan-for-Hospital-Care will be open to subscribers from the membership of the Chicago Dental Society on October 5. Opportunity will close November 5 and the plan for new members secured during this period will become effective December 5. Members of the Chicago Dental Society will receive notification and application blanks the first part of October. Those who wish to participate

in the Plan are advised to send in their application before November 5 as this will be the last opportunity for obtaining the protection the Plan offers for another year.

COL. MATTHEWS, CAPT. TARTRE MADE HONORARY MEMBERS OF C.D.S.

Col. Arnett P. Matthews, chief dental officer of the 6th Service Command, Chicago, and Capt. Joseph A. Tartre, who has served for some time as senior dental officer at the United States Naval Training Station, Great Lakes, and who has been recently transferred to the 13th Naval District Headquarters in Seattle, Washington, were elected to honorary membership in the Chicago Dental Society at the regular monthly meeting, September 19. The petition to the Society for their honorary status cited them as follows: "Both of these officers have made valuable contributions to the science and art of dentistry and have rendered outstanding service to their profession during time of war. These facts are attested by their long terms as commanding officers in the Chicago area of their respective services. They are, therefore, highly deserving of honorary membership in the Chicago Dental Society."

CHICAGO DENTAL ASSISTANTS ASSOCIATION

The Chicago Dental Assistants Association is giving a buffet supper on Sunday, October 15, 1944, in honor of the national officers of the American Dental Assistants Association. The gathering will be held at 5643 Sheridan Road at 6:00 p.m. All Chicago members are urged to attend. Tickets are \$1.00 each. Make your reservations with Ruth Riel, Randolph 2723 or Irving 4151, not later than October 12, 1944.

NEWS AND ANNOUNCEMENTS

(Continued from page 11)

The regular monthly meeting will be held on Thursday, October 12th, in the Pittsfield Building, Room 529. The Illinois Bell Telephone Company is sending a representative who will record our voices. This meeting promises to be an interesting one so please make an effort to attend.—Elizabeth Drennan, Publicity Chairman.

PSI OMEGA FRATERNITY

The Chicago Alumni Chapter of the Psi Omega Fraternity will hold a dinner meeting in Private Dining Room No. 2, Stevens Hotel, Chicago, Monday evening, October 16, at 6:30 p.m. All out of town members are cordially invited to attend. Please send your reservations to Benjamin W. Mach, Secretary, 55 East Washington Street, Chicago, Illinois.

NATIONAL RESEARCH COUNCIL CONDUCTS NUTRITION SURVEY

The Committee on Food Habits of the

National Research Council has recently conducted a study on "Attitude Toward Further Information About Nutrition." The most striking result of the interview with these men and women was the favorable attitude which a large majority had toward nutrition information.

The study showed that women who would like to know more about nutrition are those who already have some knowledge of the subject and are trying to put into practice the knowledge they now have. There were others who are content with the information they now have but think other people need to know more.

Suggestions were given by the women interviewed as to the kind of information wanted and the most acceptable method of presenting nutrition information to the public.

A copy of the detailed report may be obtained from the Committee on Food Habits, National Research Council, 2101 Constitution Avenue, Washington, D. C.

NEWS OF THE BRANCHES

NORTH SIDE

Our North Side meetings get under way October 2 at the Edgewater Beach Hotel. President Bob Hasterlik is looking for good attendance so we may start the season with a bang. Cedric Dittmer, program chairman, has arranged for an interesting speaker, Dr. Edmund Foley, Professor of Medicine at the University of Illinois, on the subject: "Treatments of Infections Using Sulfonamide and Penicillin." . . . Exclusive of Ladies' Night there are four meetings, one every other month. On the face of it, it would appear that every member could switch his evening work to some of the other. one hundred or more of the long winter nights, and so be able to attend the branch meetings. . . . Lt. Joe Laskowski, U.S.N., had six days leave, and in order to be at home as long as possible came and returned by plane from the east coast. He is back now on duty in the Atlantic. . . . Lt. Harold A. Lange, Dental Dispensary, Parris Island, has been joined by his wife and children. In a rifle test, Lt. Lange hit the mark 299 times out of a possible 306. . . . John P. Brahm has been made a lieutenant (S.G.) and left just recently for San Diego Naval Training Station, California. . . . Captain Brethold Schulz, D. C., brother of Roy Schulz, is with the invasion forces in France and is going at a high pitch giving service to the boys. . . . Ray Cooke, after a month of more in the west is back in his newly decorated office ready for the old grind. . . . Fred Dattelzweig attended the Army and Navy show on the Lake Front. To secure a Jap helmet as a souvenir he purchased a hundred dollar bond. He reached home hugging the helmet, but a little later some one phoned saying the bond had been retrieved from a downtown gutter. . . . Bob Heurlin, fishing at Cohassett, Minnesota, landed a fifteen pound Northern Pike and was

awarded the local weekly prize for the catch. . . . D. P. Sabbia spent two weeks fishing at Pelican Lake, Wisconsin. He reports the pike fishing not so good, but in a nearby trout stream he had a lot of fun angling for the speckled tribe. . . . Walter Christiansen spent two weeks at Bruce, Wisconsin, enjoying the rest and fishing. Edgar Walker was at Minocqua, Wisconsin, for two weeks and later visited his father at Chadwick a few days. J. V. Linder went to northern Michigan for his vacation. . . . Clyde and Mrs. West are at home again. They report a very pleasant month on the farm at Watseka. . . . An apology goes to Ted Olson who won low gross prize at the Rolling Green golf meeting. Through an error we stated George Olfson was the winner. . . . Our captain, Bill Young, says the Bowling Club will get going around November 15. Those wishing to join the teams may phone Dr. Young at Wellington 4411.... Look over the book reviews in the current Illinois Dental Journal. You may find something you want to read. . . We all extend sympathy to D. T. Barcroft whose wife died recently.- Z. D. Ford, Branch Correspondent.

NORTH SUBURBAN

Committee chairmen of the branch met last week to discuss plans for the year's activities. The prospects are good for some very interesting and worth while scientific sessions. The meetings will be held at the Orrington Hotel as usual, and will be on Monday evenings except for the Clinic Day, which will be on Wednesday, November 8, the details to be announced later. The date for the first regular meeting is October 9, when Dr. Waldemar A. Link will present a program on the topic of "Amalgam Restorations." Dr. Link is a graduate of the University of Nebraska, School of Dentistry, and since 1939 has been instructor in operative dentistry at the University of Illinois, School of Dentistry. Dinner will be served at 6:30 sharp and the scientific meeting will begin at 8:00, also sharp so that members who wish to meet train schedules may be able to do so. Dinner Chairman Shafer reports that season tickets are now available. . . . Otto Brasmer's committee for the promotion of dental hygiene was in action again recently when twelve North Suburban members spoke to Evanston High School students on that topic. . . . The newly revised and more liberal game laws of South Dakota have added encouragement and stimulus to pheasant hunters and several of the members have been heading northwest. Among them are O. E. Scott, Lynn Stephenson, Otto Brasmer, Harry Chronquist and Ed Robbins. . . . Jim Keith submitted the following letter from Captain L. L. Mc-Evoy, former North Suburban Branch Correspondent: "Just a line to you and the North Suburban group to let you know that I am in France and doing We're all glad that we're quite well. not on the second team any more and are now in there pitching. The spirit among our boys is simply incredible and on seeing the pathetic German prisoners and the quality of most of their equipment as well as the genuine joy of the French people at seeing us it is hard to believe that we'll not go through them like New Trier through Evanston. The first soldiers in a town are lucky to come out sober, and are loaded with flowers, fruit and eggs. The weather is lovely, and France is one of the nicest places I've seen. It far overshadows England and Ireland. Not many speak English but we are learning to 'parle Francais' very fast. Our food is fair in spite of the difficulty of getting it to us. Say 'Hello' to all-and let them know that the artillery is on the ball and in there pitching the stuff out at the Boche. I even do a little dentistry now and then, but not much. Had quite a civilian exodontia practice one place." . . . The Chicago Dental Society Annual Outing was a splendid success. Lynn Stephen-

son did a swell job of management. J. D. (Slingin' Sam) Pett won a low gross prize. Some of the low net prizes were taken by Bob Johnson, Earl Bommerscheim and Jim Keith. Bob won a rain jacket which will be of doubtful value to him since he is an exponent of Harry Combs' philosophy that it never rains on a golf course. Jim must have been able to get his knees straightened out in good time, for he had just returned from a Wyoming vacation, most of which was spent on horseback. This brings to mind the following incident: A former North Side dentist, accompanied by his wife, went to visit his parents who lived on a ranch in Wyoming. The ranch was situated several miles from the nearest railway station and it was necessary to make the last part of the journey on horseback. The wife, whom I shall call Miss North Side, was amazingly unacquainted with horses, and a little apprehensive about the trip. The cowboy who met the train with the mounts knew that Miss North Side was not an experienced mountain rider and was anxious to make the ride as comfortable for her as possible. "How are the stirrups?" he asked, when she was seated in the saddle. "I don't know what stirrups are," she replied. "Those things you have your feet in," he explained. "Well they look all right to me," she answered. "Stand up," said the cowboy, "and let me see if they need adjustment." "Look, Cowboy," said the indignant lady, "I may seem awfully stupid to you, but I know enough not to stand up on a horse."-Waldo O. Urban, Branch Correspondent.

NORTHWEST

What's wrong with the kind of weather we're having now? Not a thing, "Bub." This last fling of summer is just perfect. In fact it's positively drooling and just too too divine in the phrase-ology of our teen-age Nancy. It would be super (this hep talk has got me too) if one could bottle this balmy weather for use during the cold dreary months

ahead. Enough of this prattle-let's talk about our first branch meeting, which is only thirteen days away. Yes sir! Friday, October 13, is the date. It's supposed to be a voodoo day so you might as well not work that night. Pick up your phone and call Spaulding 8851 for your dinner reservation and before you put the phone down think of a number -any number that will reach one of our old time regulars, and urge him to attend the meeting with you. Joe Ulis has wangled an extra appropriation to procure the necessary ingredients of proper potency to place in the hand of each guy who shows up for dinner, a special mixture guaranteed to spread good cheer round and round. The program will feature Dr. Harry Spiro, who will present a progressive, constructive lecture on restorative dentistry covering crown, inlay and bridge fundamentals, and also vertical bite dimensions. The session will end with questions and answers so bring your pet problem along for Harry to solve. We feel mighty proud of the exploits of Lt. Marvin Chapin, a member of our branch. Be sure and read the story of this brave lad which appeared in the September 15 issue of the REVIEW.—Thad Olechowski, Branch Correspondent.

SOUTH SUBURBAN

It's almost World Series time now, and just who is going to win the pennant? Your guess is as good as mine. Regardless of the outcome, fall is here and that means we take up our regular routine of dental meetings. That is most of us do. South Suburban will hold its first regular monthly meeting on Tuesday, October 3. Dinner will be served at 6:30 at Perry's, 147th and Western. The place of the meeting, either Blue Island or Harvey, will be announced later to the membership. Our speaker will be Dr. A. L. Cornet, who will discuss "Drug Addicts and the Million Dollar Dope Ring." Dr. Cornet, an authority on drug addiction, is at present putting his knowledge and an original treatment to practical use at the Mount Mercy Sanitarium. . . . Word has been passed along that Smiley Simon is leaving around the first of October for a bear, moose, deer, etc., hunting trip in Canada. His traveling companion is the curator of the Field Museum-such company should make the trip doubly interesting. . . . Our own Henry Bahlman has become one of the landed gentry, or as it has been so aptly put by Lloyd Bettenhausen, a city cowboy. Hank has bought himself an estate out Lincolnshire way stocked with cows, dogs, cats and two horses. Chickens, usually present on such places, are conspicuously absent. It seems Hank has no use for the critters. There is a tremendous amount of work to do about the place and it keeps Hank so busy he hasn't time to take care of his dental practice. . . . Lloyd Bettenhausen has recently returned from a fishing trip up in Lake of the Woods, Canada. Lloyd accompanied a group of Kiwanians from town and has some pretty good fish stories to tell. . . . Jack Hanell, son of the late Dr. Hanell, has just finished dental school and is going to open an office in Chicago Heights soon. Good luck, Jack. . . . That's all the news for this writing. Let me hear from youse guys about your doings and goings on.-H. C. Gornstein, Branch Correspondent.

ENGLEWOOD

Now that vacation days are over Englewood men are swinging into Society activity again. A fine crowd attended the first meeting of the year, held on Tuesday, September 12, at which Dr. Stanley Tylman spoke on the use of acrylics. . . . The next meeting scheduled for Tuesday, October 10, promises to be most interesting. Dr. Gillis of Hammond, Indiana, will explain the problems of full denture construction and will illustrate his talk with movies. His presentation will be followed by a question and answer program. For dinner reservations call Dr. Goldhorn, Pullman 0444. . . Earl Harris, who has been ill, is now back at his office. . . C. M. Fisher has been called to Canada because of the illness of his father. . . . Ora Medsker spent a few days in Milwaukee. . . . Ed

Werre and Marion Hopkins recently returned from their vacations. . . . Our program chairman, John R. Thompson, has moved into his new home in Beverly Hills. . . . Capt. W. B. Maddox is home on furlough. . . . George Bell visited at his old home in New York state for the past month. . . . Harold Hayes spent a week at his summer home on the Kankakee river. . . . Howard Alexander's vacation in Upper Michigan was cut short because Mrs. Alexander fell and fractured her ankle. . . . Jerry Wilher has returned from three weeks' vacation at Rhinelander, Wisconsin, where he enjoyed exceptionally good fishing. He landed two large muskies and another enormous one got away?—George D. Bone, Assistant Branch Correspondent.

KENWOOD-HYDE PARK

The big news of the branch has to do with the first meeting of the year which will be held at the Del Prado Hotel on October 3. Dinner will be served at 6:30 followed by a business session at 8:00 o'clock. Be sure to call Dr. B. Z. Black, Midway 0989, for reservations. The program will consist of a series of movies presented by Commander A. H. Grunewald of Great Lakes including four combat pictures-Battle of the Midway, War on the Seas, Why We Fight (Battle of Britain), U-boat Attack on Convoy-and a fifth depicting an indirect technic for precision crowns. promises to be a very interesting and entertaining evening and we hope that everyone who possibly can will be in attendance. . . Les Boyd was under the weather suffering from an attack of "Flu" but is back at work again. . . . W. L. Spencer, who was also on the sick list, spent a week at Lake Geneva recuperating. . . . Walt Dundon has gone to New York for a short stay. . . . Bob Wells tells us he has recently celebrated his twenty-fifth wedding anniversary. Congratulations!—G. L. Christopher, Assistant Branch Correspondent.

WEST SIDE

West Side branch will hold its first meeting of the year on October 10, and will present as the first speaker one of dentistry's distinguished members, Dr. Stanley Tylman, who will speak on the "Practical Uses of Modern Plastic Resins." As everyone knows, Dr. Tylman has devoted a great deal of his time to this important phase of dentistry. Consequently, we will benefit greatly and receive some first hand information regarding an integral part of our present day practice. . . . Sam Rakow is finally getting around again and expects to attend the first meeting. . . . Our branch correspondent, Frank Kropik, has received a most interesting letter from Gerald Casey who is "Somewhere in France." Frank will read the letter at the meeting. . . . Sam Kretshmer spent the Labor Day holidays at Elkhart Lake, Wisconsin. Incidentally, Sam ran into Harry Luskin at the lake. . . . J. S. Vission, A. J. Sells, and J. J. Ehrlich spent the Labor Day holiday at one of the lakes in Minneapolis. . . Art Tessler has just returned from the Southwest Pacific area, and has undergone surgery at the Government Hospital in Galesburg. . . . Don't forget the first big meeting of the year on October 10.—Vincent P. Vivirito, Assistant Branch Correspondent.

WEST SUBURBAN

If you are in the habit of marking off dates in that appointment book here are four good ones: November 14, January 9, March 13, and April 10 are the meeting dates for West Suburban Branch. The program committee with Fred Hawkins, Rudolph Hinrichs, L. C. Borland and Harry Nortell is busy getting speakers for these occasions and Chairman Hawkins already has filled the November 13 spot with Harold Hillenbrand as the stellar attraction. The subject of his talk will be announced in our next issue. . . . We still keep Ralph Krause and E. A. Prugh on our sick list with "Bert" Prugh the subject of some major surgery. It is too early to give you any reports on his progress at this time but we will keep you posted. . . . E. Walter Edlund has returned from a week at Excelsior Springs. He looks fine and rested, but has a whole string of stories

to tell on the problems of present day travel. . . . Captains George Welk and Bob Wirth are in town on leave and will return shortly to their former posts. . . . Frank Krivanek tells about Jap souvenir hunting expeditions in the New Guinea jungles. He also shows a picture of the beach upon which he landed during one of the operations down that way. He is never without an emergency dental kit and is called at all hours and in every spot imaginable. . . . It looks as though the pendulum has begun to swing back toward a normal dental population. We have three fellows returned from the services who are setting up civilian practices. Art Hurt and Fred Mahlke are looking around for a place to land while Bob Koch is having a great time setting up his office in the Hahn Building in Evanston. Welcome home! . . . Dick Jentzsch, who is now mayor of Woodale following a term as alderman, entertained a number of friends at an annual open house recently. He has gone into gardening and poultry raising in a big way. The nineteen chickens served were from his own roost. . . . Ed Krejci has been confined to his home for the past six weeks with a heart ailment. It is reported that he is making a rapid recovery. . . . Bob Kesel missed the opening meeting of the Chicago Dental Society because he was in Canton, Ohio, discussing the role of "Fluorides in the Control of Dental Caries" before the Starke County Dental Society. . . . Marshall Grunwald's home was struck by lightning during a heavy thunderstorm in the early morning hours. The chimney was demolished as well as a portion of the roof. However, the dwelling did not take fire.-Karl von der Heydt, Branch Correspondent.

Improvement of Health in Twenty-Five Years:—The health of the American people is essential in the war effort. Fortunately the country has never been better fortified in this regard than it is today. A succession of noteworthy discoveries in medical science and developments in public health have prepared us better for the hardships and vicissitudes of modern warfare than we were twenty-five years ago. The experience among industrial policyholders of the Metropolitan Life Insurance Company proves that the adjusted death rate has been reduced slightly more than 50 per cent in the course of the last quarter century. This reduction has appeared in practically every important cause of death. Indeed the diseases of childhood and infancy have been virtually eliminated as a cause of death within this period, thus resulting not only in a substantial saving of life at early ages but also the sparing of many disabling sequels of these diseases to young people living today. The death rate from tuberculosis among industrial policyholders has been reduced to about one-fifth that of 1917; the mortality from syphilis is less than half of what it was in 1917. Similar trends have been manifest for pneumonia, maternal mortality and appendicitis. For motor vehicle accidents, however, the rate has more than doubled since 1917—the one notable exception. The experience of this large group of industrial policyholders may be considered generally applicable to the nation as a whole. J.A.M.A., 119:267 (May 16) 1942.

Is Longevity Inherited?-To determine the actuarial basis of the common belief that age is determined to a large extent by heredity, Dublin and Marks1 analyzed the records of some seventy thousand persons insured by the Metropolitan Life Insurance Company for whom complete and accurate data of length of life were available concerning them and their ancestors. It is concluded that this study points broadly to a positive relationship between the longevity of parents and offspring, but this holds true only when the parents were still living when the insurance was written. This raises the further question of whether longevity in these cases is really due to inheritance or to environmental conditions. Death of the parents and consequent breaking of the home create a risk of early death that seems more than to offset any inherited factor. The greater importance of environment is further demonstrated by the fact that the maximum difference in expectation of life due to heredity at the age of 20 does not exceed three years, while there has been an average gain of about five years recorded among men of the same age in the general population during this century. "Certainly, on the basis of conditions in the world today, the study concludes, "the environmentalists have distinctly the better of the argument in so far as relates to the question of longevity." J.A.M.A., 119:348 (May) 1942.

¹ The Inheritance of Longevity—A Study Based on Life Insurance Records by Louis I. Dublin, Ph.D., Third Vice President and Statistician, and Herbert H. Marks, Metropolitan Life Insurance Company, New York.

America's favorite dairy food— Ice Cream—is an important source of vitamins, proteins and minerals

Navy menus don't just happen! Every food included in the diet of Navy personnel is there for a purpose.

It is there because it has been approved by the staff of experts at the Subsistence Research Laboratory of the U. S. Navy in Chicago. That is why it is significant that ice cream ranks so high on Navy menus.

Ice cream is not only a favorite food but it is also a good source of valuable vitamins, proteins and minerals.

ICE CREAM IS A FOOD

Note in the chart below the essential food elements furnished by ice cream . . . elements that help build the fighting fitness America needs to win.

HASTEN THE DAY!

You can help hasten the day—THE day of final unconditional surrender—by investing your war-time earnings in War Bonds.

Hastening the day means shortening casualty lists. In war, bullets, shells and bombs are exchanged for lives. The War Bonds you buy help pay for the bullets, shells and bombs that will speed the victory.

Your consistent War Bond invest-

ments will work for you too at the same time that they work for your boy in service. They will give you that luxurious feeling of freedom that goes with a welllined pocketbook. For whatever you may desire ten years from now, your War Bonds will add one-third more to what you've invested.

Help hasten the day of victory, and help make that victory more secure buy your War Bonds today.

BUY WAR BONDS CHICAGO DENTAL SOCIETY

This is an official U. S. Treasury advertisement—prepared under auspices of Treasury Department and War Advertising Council

It's no secret that many of the most successful dentists ... use this simple PSYCHOLOGICAL TECHNIQUE:

Proper tooth brushing instruction pays... builds good will for you every morning and every night. A change of technique, plus a change of powder and brush, impresses the patients... makes the new technique important. The Py-co-pay Tooth Powder and Brush are seen, touched, tasted, smelled... involving four of the several senses... recalling you and your instructions twice each day!

PY-CO-PAY

TOOTH BRUSHES AND

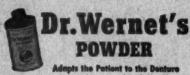

SOLUBLE—Because Dr. Wernet's is completely soluble, free of foreign matter, it sets up a resilient cushion that permits denture to ride close to tissues . . . does not establish bulk to destroy perfect fit.

NON-INCRUSTATING—Daily cleaning will dissolve and remove all traces of Dr. Werner's, leaving no residue to incrustate in ridge areas. Insoluble powders can set up uneven pressure, cause mal-occlusion, the forerunner of dread pendulous tissue.

PURE, NEUTRAL—Chief ingredient in Dr. Werner's Powder is so pure it is used universally as a binder in ice cream. Dr. Werner's is harmless if swallowed, can not interfere with digestion, is not acid nor alkaline. FREE SUPPLY on requests. Wernet Dental Mfg. Co., Dept. 14 N. 190 Baldwin Ave., Jersey City 6, N. J.

It is a pleasure to work with gold, because gold is workable. The slightest adjustment can be made BY YOU—NOW. That saves time for you and your patient, insures accuracy and comfort—service of a lasting degree.
